"I think I'm goin' back
To the things I learned so well in my youth,
I think I'm returning to those days
When I was young enough to know the truth,

6-24-76 L-24264-GIFT

"Now there are no
games to only pass
the time,

"No more electric trains,
No more trees to climb

"I can recall the
time
When I wasn't
ashamed to reach
out to a friend

"Now I think I've got a lot more than
Just my toys to lend.
For now there's more to do than
Watch my sailboat glide"

—Gerry Goffin and
Carole King

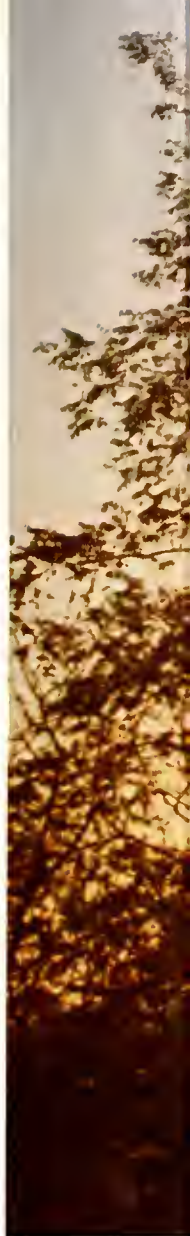

Here among the wide
variety of people at
Southern, I search for
a New Day,

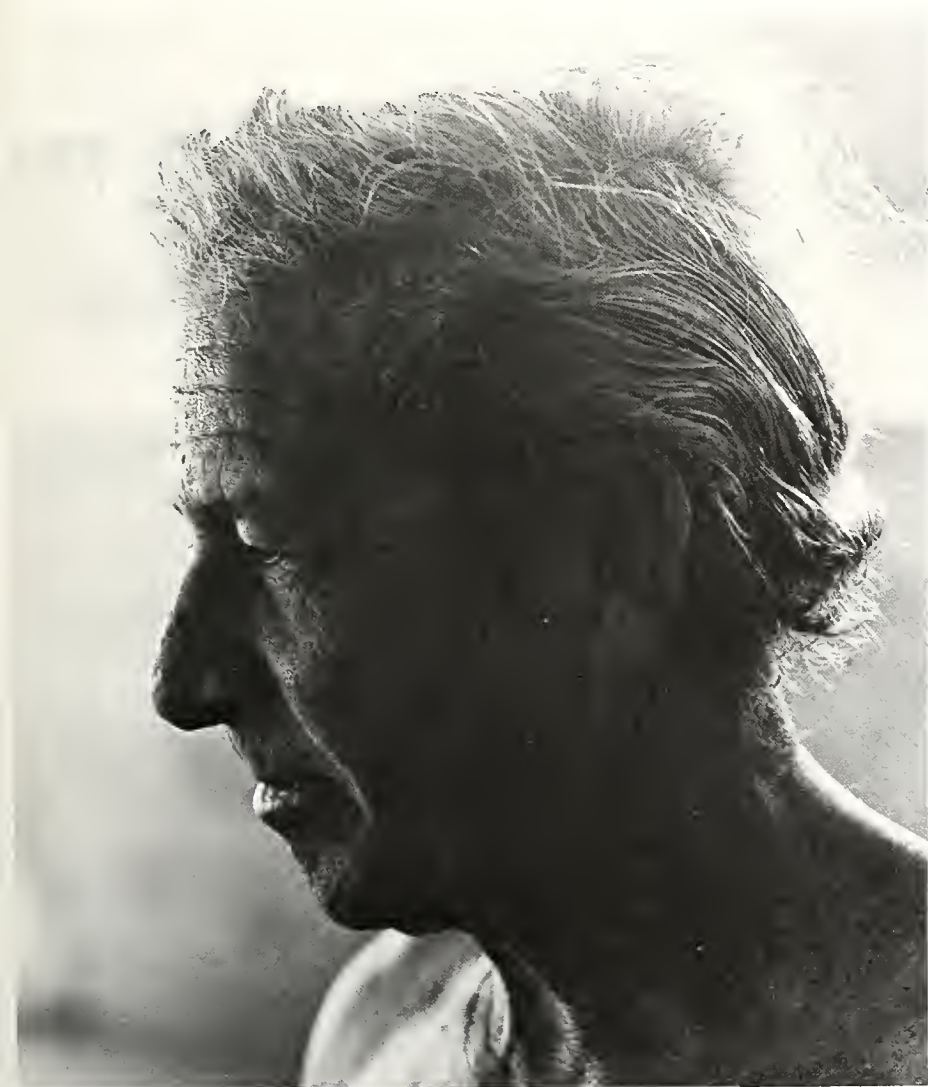

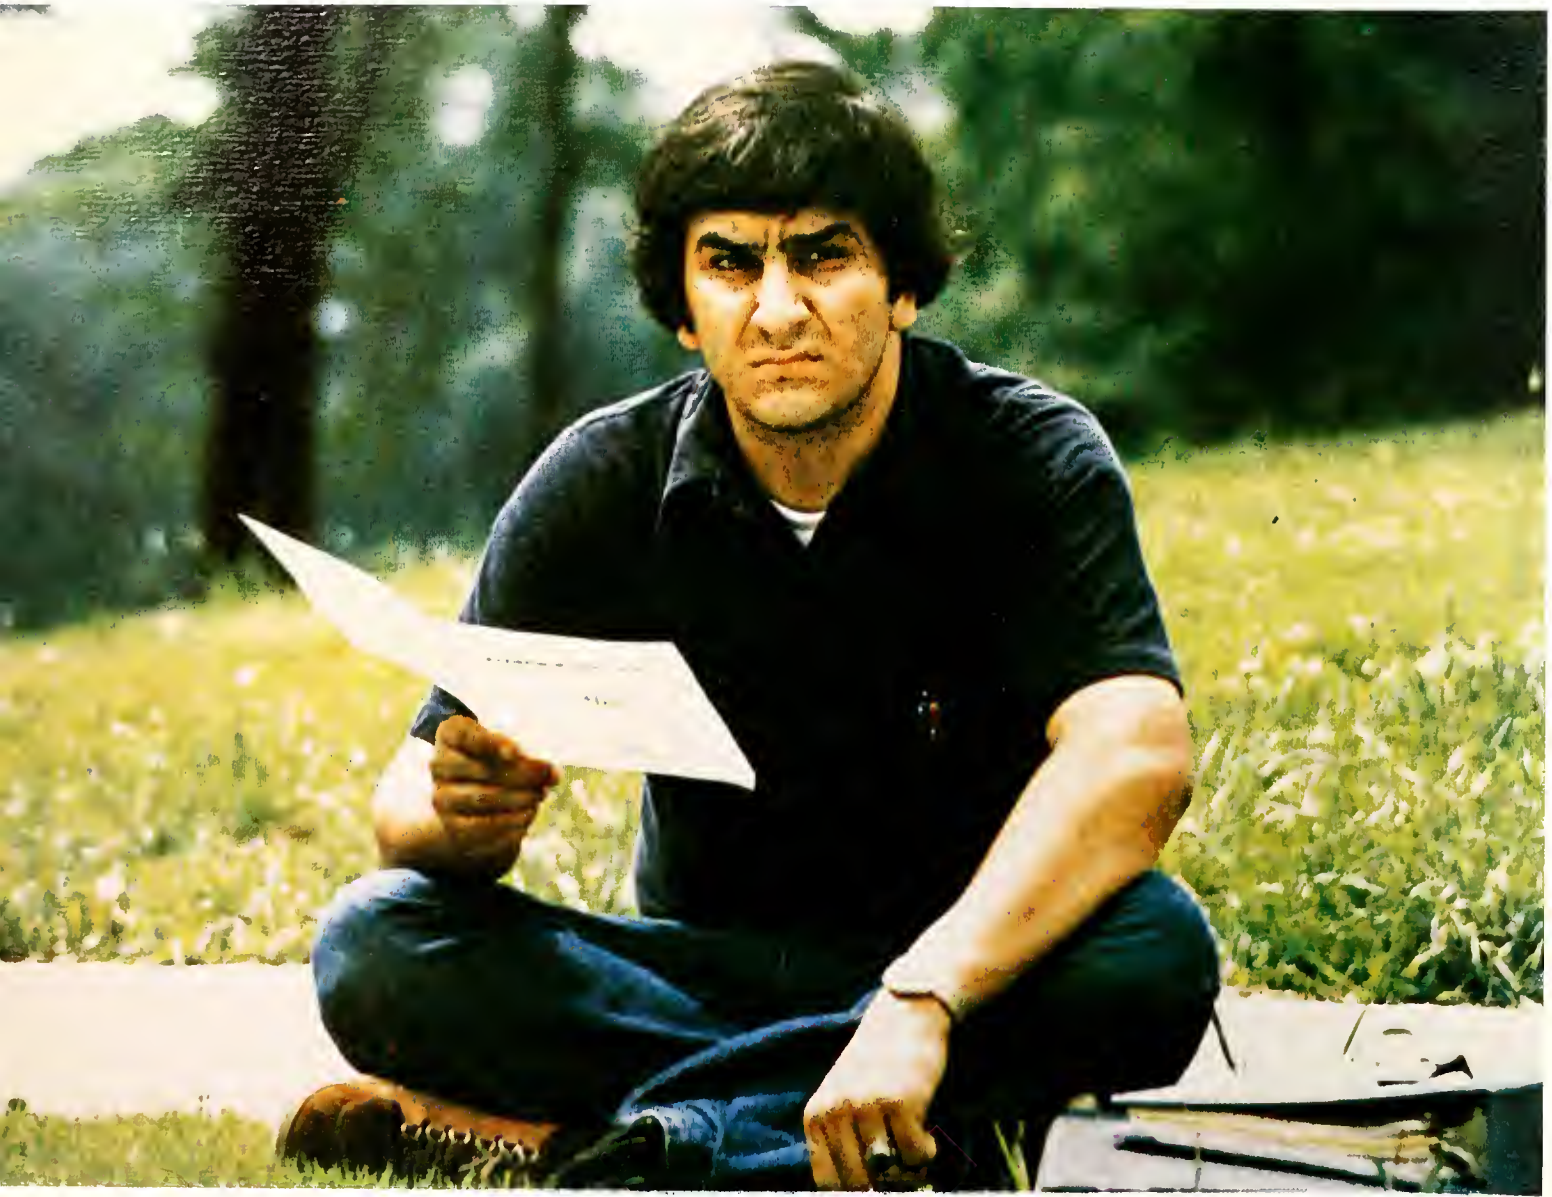

A Day
like no other—
A Day when I'm not ashamed
to reach out to all

A Day when our children can be
raised in love,
A Day when our children can ask,
"What was war?"

In searching for that Day, we
come to college to learn, to acquire,
to attain, to uncover that which is
hardest to find ourselves.

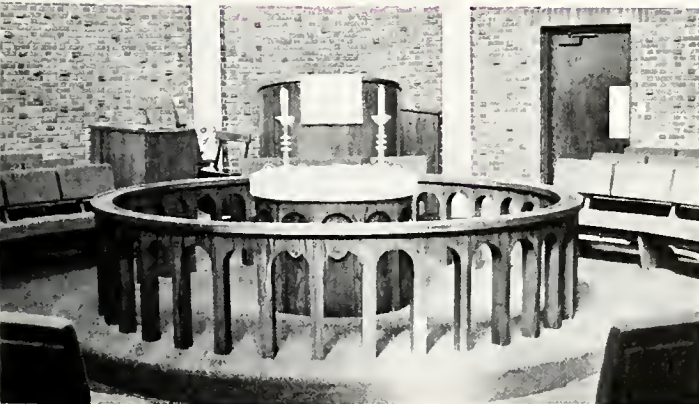

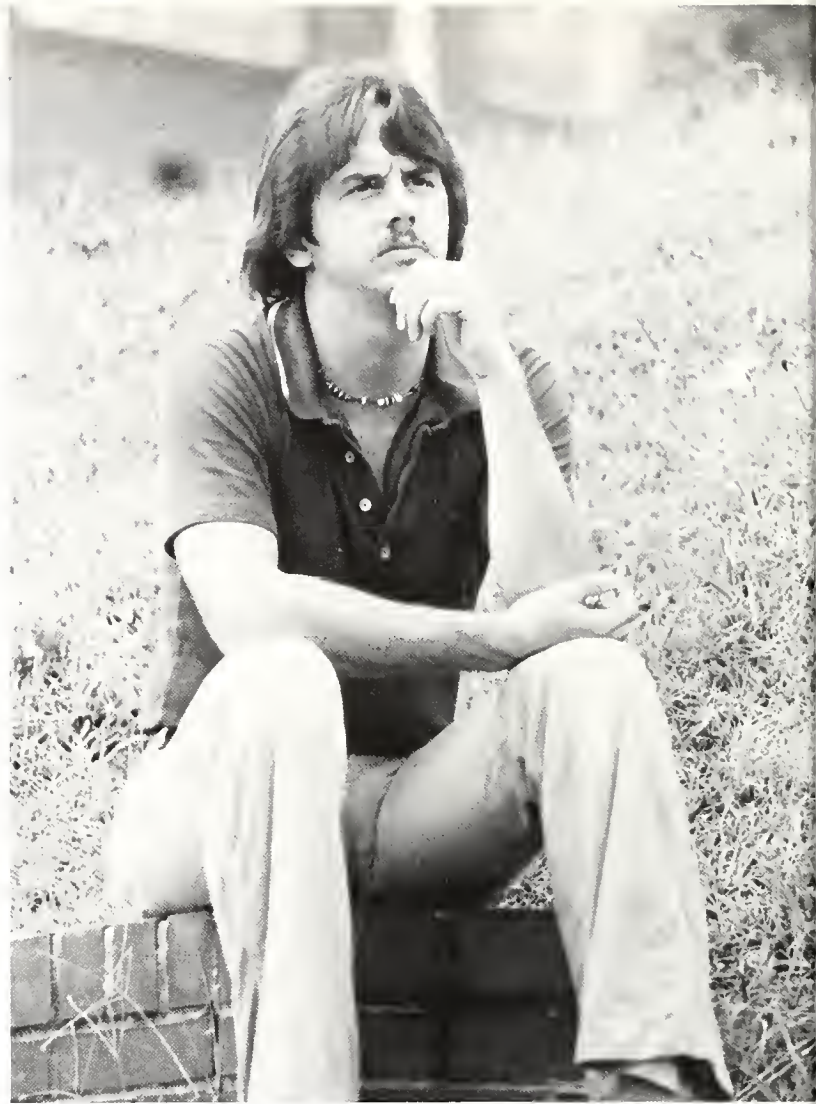

Southern provides a beginning,
A beginning that exhilarates the mind
and challenges individuals to find
meaning in this world.

And in reaching out and loving all people, I can say I've found that meaning in this world. But if at anytime love for my brother is lost, then so is hope and meaning, and so am I.

But at this moment, I
am here, no one can deny,
and the moments that I
now experience are as
perennial as the grass.

For as time passes, I will
continue to learn, and to
discover
That in reaching out to all,
the truths of life will unfold.
And these truths shall set
me free

Paul Clinton Bailey
Dean of the College

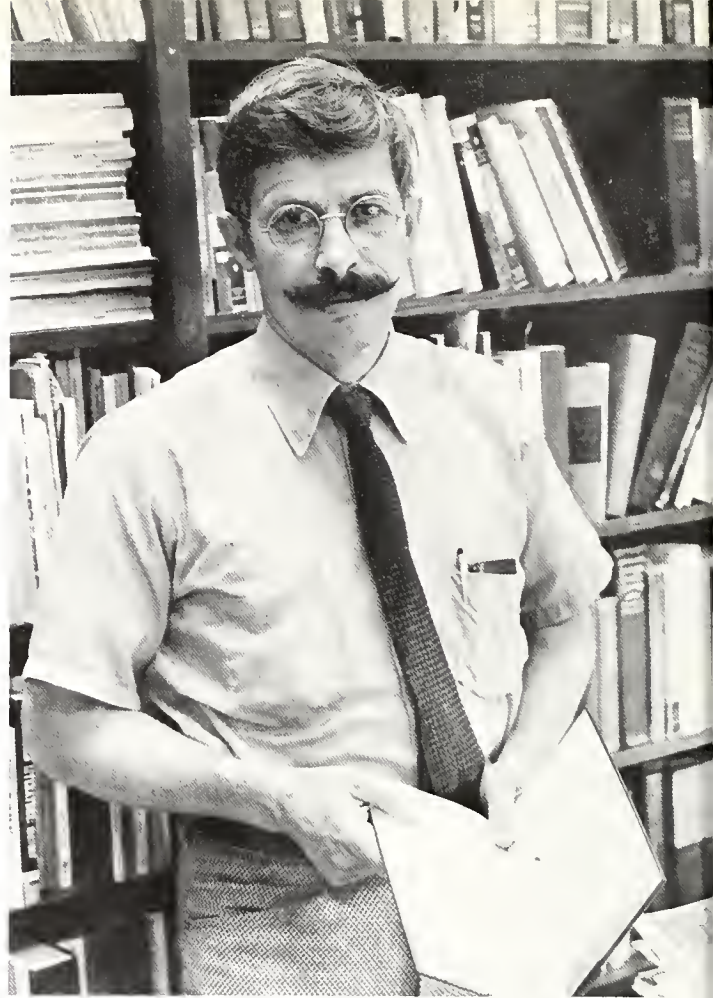

In addition to his duties as Dean of the College and Faculty, Dr. Bailey has taken on other roles as well. While the Board of Trustees was searching for our new president, he served as acting president. Still, he finds time to teach an introductory course in the biology curriculum.

As the new Treasurer and Business Manager of the College, Dr. Byron Chew shared the administrative load placed on Dean Bailey in the absence of a president. Dr. Chew is also wearing many hats this year. He continues to direct the Norton Center to some extent and teaches courses in the Department of Economics and Business Administration.

Entertainment

Lily Tomlin

I didn't think Lily Tomlin was actually all that funny.

I did think she showed evidence of being a very good actress—and I'm not referring to the "Ernestine" or "Edith Ann" characters.

Her Munger Hall, Quest II performance Oct. 17, 1975, was standing room only and the people who came obviously were friends. Standing ovation. Three curtain calls

But she was best, I thought, doing one piece about a sorority girl (there might have been some local identification on that one) and a rather somber but beautiful routine about a girl in a bar thinking and talking out loud about her life.

That's when Lily was poignant. That's when Lily was truthful. And that's when Lily was at her best.

Although the clothing was a bit unusual (blue jeans in some cases) the U.S. Senate meeting at BSC was like the real thing in some instances.

Lots of talk Lots of pages running around with notes, but generally a good bit of order on the Senate floor as compared to the real thing.

It was 'Southern's first U.S. Model Senate program, a four day look into the world of Washington D.C., with Alabama's top high school students playing the roles of America's 100 senators.

Floyd Riddick, former parliamentarian of the U.S. Senate was there to keep things moving properly and there were talks from Alabama Republicans and Democrats—and at least one U.S. Senator. That was Sen. John Tunney of California, here to visit with the high schoolers and to speak as part of 'Southern's Quest II lecture series.

Model

Senate

John Tunney

U.S. Senator John Tunney of California pushed the Noise Pollution Act toward passage in the Senate and House, a feat Senate Majority Leader Mike Mansfield called a "legislative miracle." Another bill which Sen. Tunney is principle author is the Water Control Quality Act, which mandates all waterways be clean enough for swimming by 1981.

During his talk at 'Southern he discussed the "breakdown in processes of government, erosion of Congressional power due to encroachment of the Executive Branch," and he suggested remedies to restore balance and public confidence.

Art Buchwald

Art Buchwald, in addition to his popularity as a syndicated columnist, is also the author of many rib-tickling books, the latest being **I Am Not a Crook**. As a performer he is heard on records, on television, and before audiences all across the nation.

Art Buchwald spoke at BSC February 21, 1976, and as in the words of columnist Walter Lippman, "is one of the best satirists of our time."

Vincent Price

Vincent Price, well known to motion picture, television and theater audiences, is equally well known to lovers of art, collectors of cook books, readers of his books and newspaper articles, as well as the thousands who have seen his one-man shows and listened to his lectures.

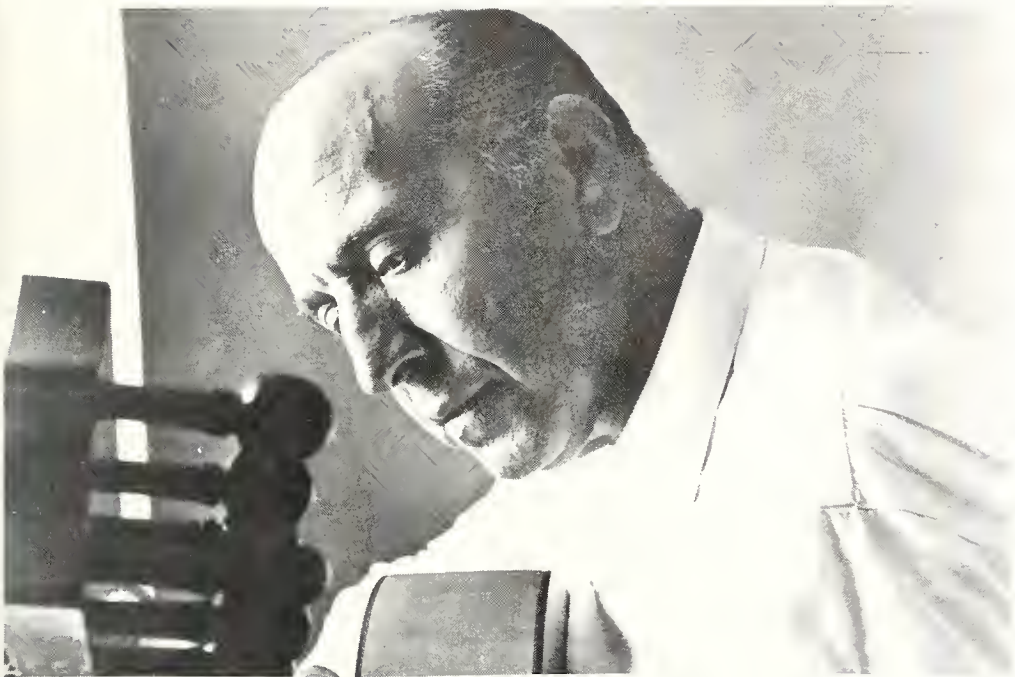

Some of Price's best known films are: **Song of Bernadette, Laura Dragonwyck, House of Seven Gables, The Ten Commandments, The Raven, The Pit and the Pendulum.**

At 'Southern, Vincent Price started his speech on the theme, "The Villains Still Pursue Me."

George Plimpton

George Plimpton, the author who has tried his hand at everything from quarterbacking a professional football team to playing a stand-up comic in Las Vegas, appeared at BSC on March 26, 1976.

Carlos Montoya

"Flamenco must come from the heart," says world renowned flamenco guitarist Carlos Montoya.

Born in Madrid, he started playing at age eight, taught by his mother, later by a barber in the same city. After a year the barber said he had taught Montoya everything he could, and the young man began his training in the "school of experience."

He played in the heyday of flamenco dancing and singing and in 1948 presented his first full concert of flamenco guitar music, something unheard of at the time. Until that event, guitarists had always accompanied singers or dancers only.

On May 8, 1976, there were no singers or dancers on Munger Auditorium's stage—there was only Carlos Montoya and his guitar.

Theatre

After unrest at the beginning of the year over what the major production would be, the Drama-Speech department turned to the **Empire Builders** by Boris Vian. It turned out to be an excellent choice by Dr. Powell. Students and faculty went forth in preparation with a unity and intensity rare even for the theatre. The technicians created a three-part set and lighting which established just the feeling of isolation vital to the play. And the crack acting of Glenn Scott, Jean McDaniel, Sarah Marshall, David Blalock, Donna Baugh, and Michael Fierman gave the audience a chilling, absurdist account of what happens when people attempt to become islands unto themselves. This one-act production was like a small diamond. Small, but flawless.

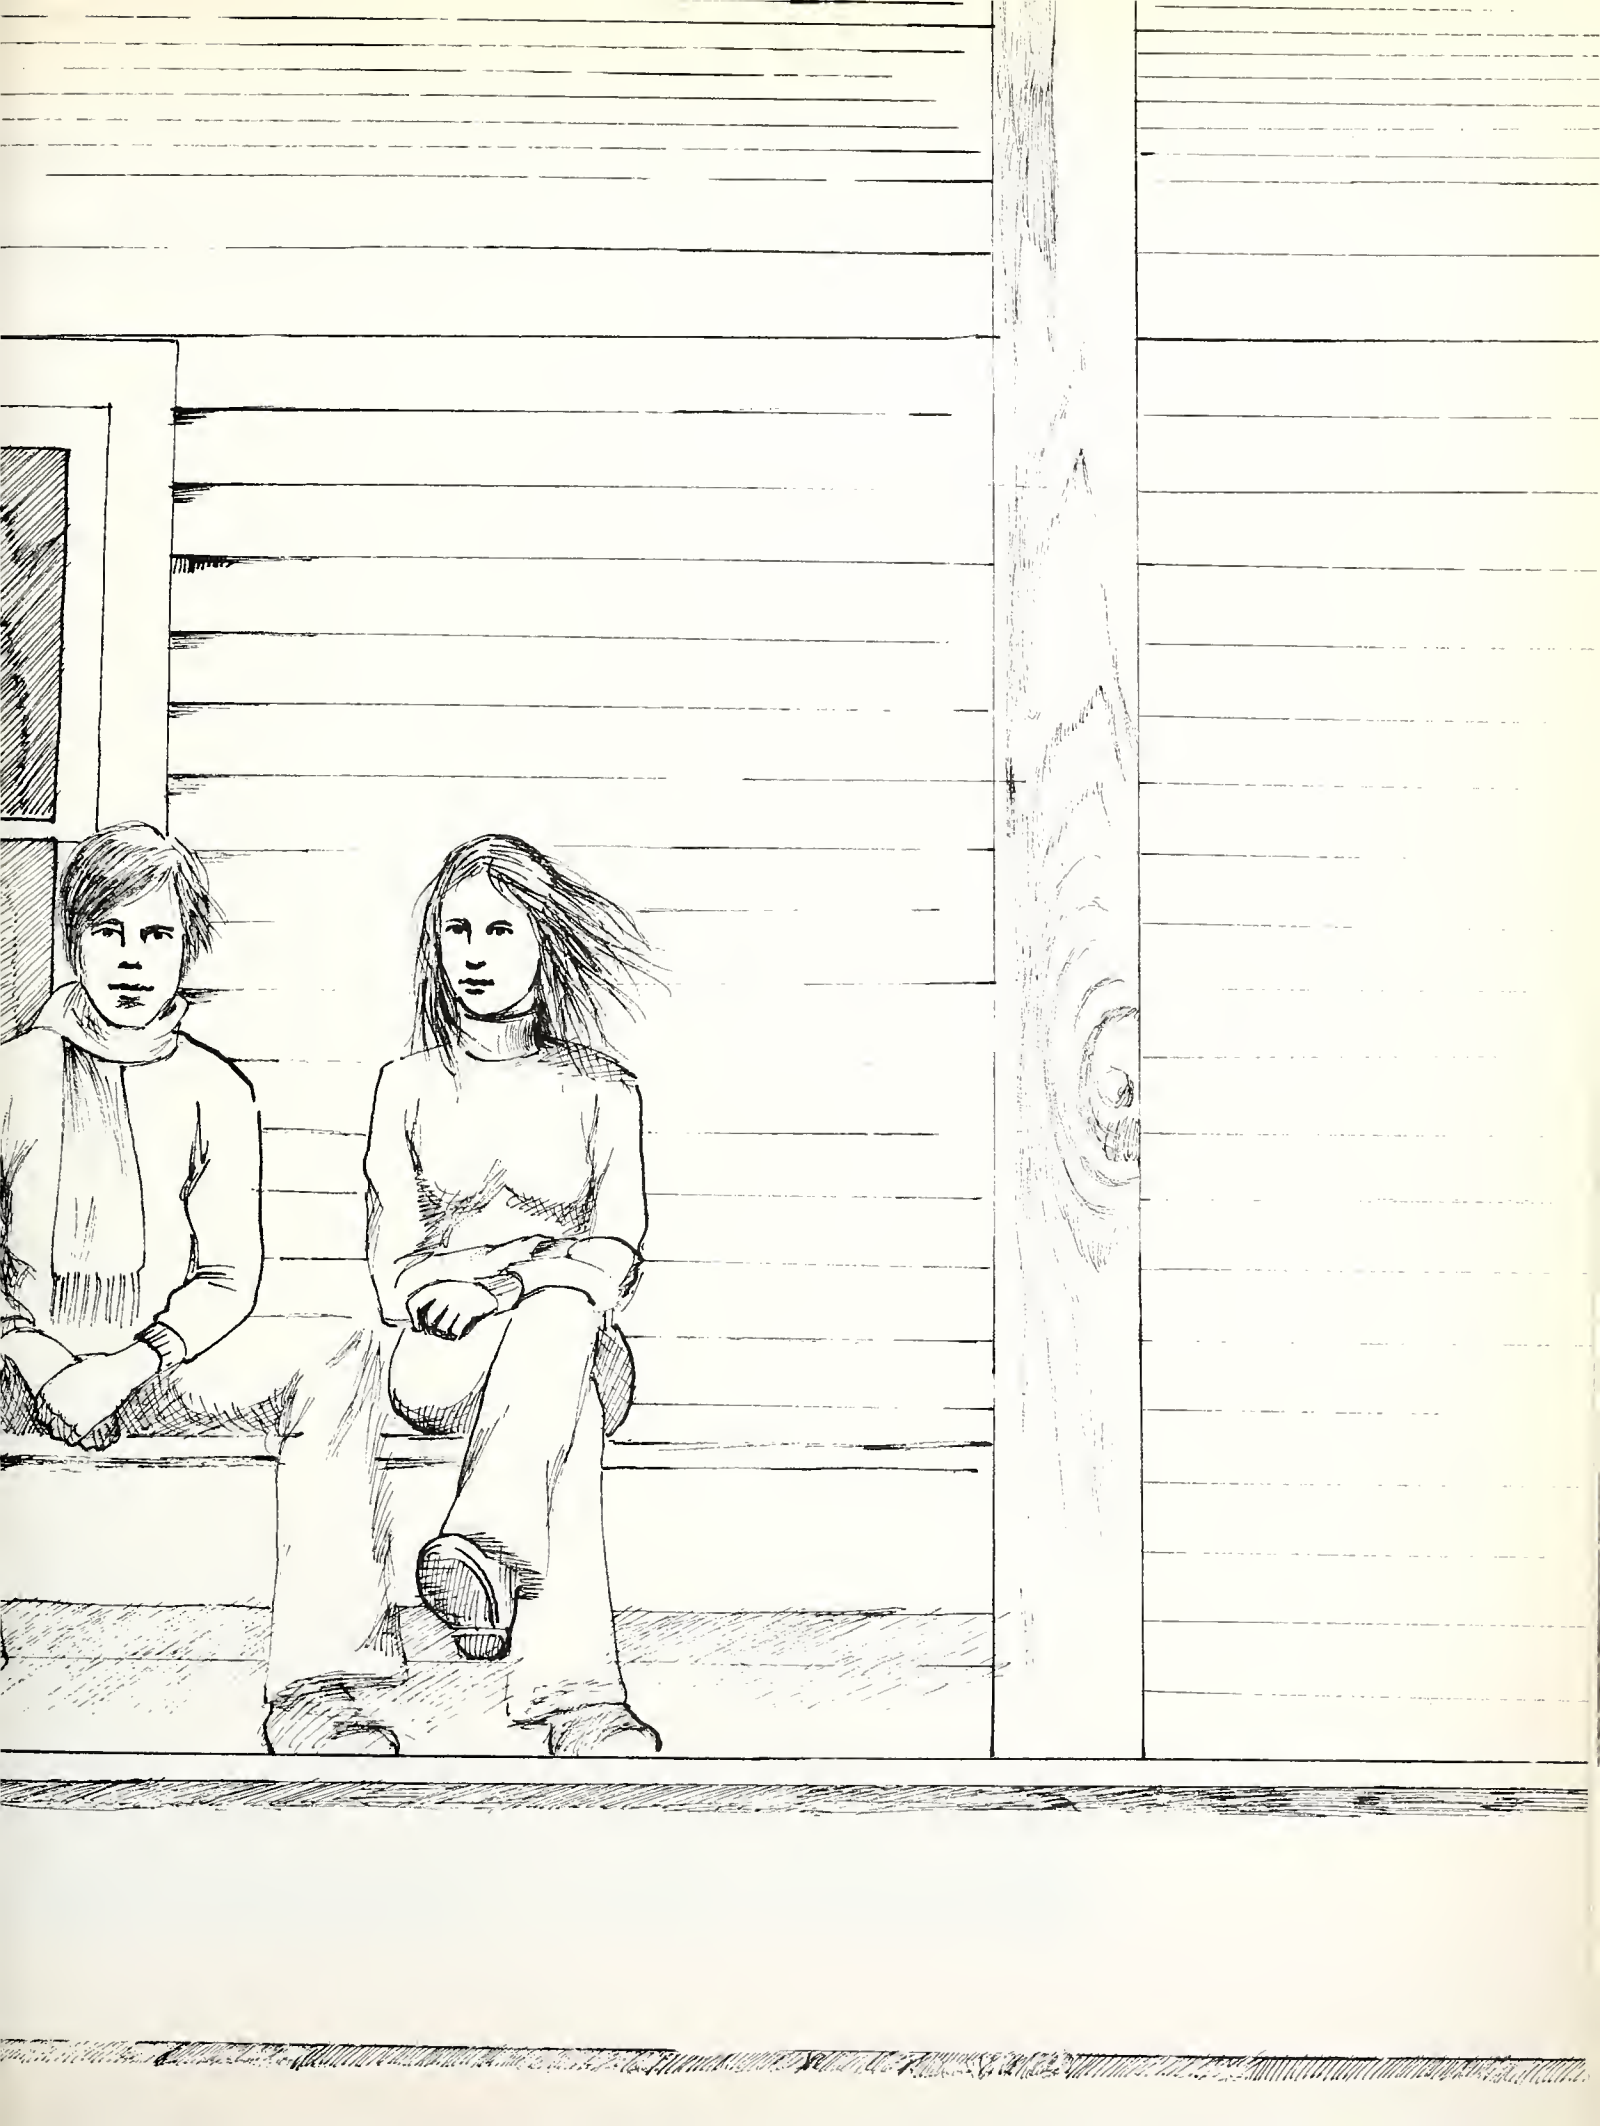

In keeping with the College Theatre tradition, the rest of the year saw fresh interpretations of classic material. Lyndia Linford presented Eugene O'Neill's **Mourning Becomes Electra** in the round and Dr. Powell directed a Concert Theatre version of Dostoevsky's **The Brothers Karamazov**. Student-directed plays included: Ionesco's **The Bald Soprano**, Shaw's **Candida**.

Pi Beta Phi is like a song. Like all pieces of music, it is very hard to define or describe. Like a song, it drifts through your memory. It touches your mind; it touches your heart; it touches your life. You can't describe Pi Phi in so many words because you could talk forever without giving its true meaning. But we can tell you Pi Phi is found in these girls. It is found in our tears, in laughter and in song. We have accepted a very precious gift—the music of Pi Beta Phi. It would be a song that we would always remember, and a feeling that will be ours forever.

Reaching Out

SGA

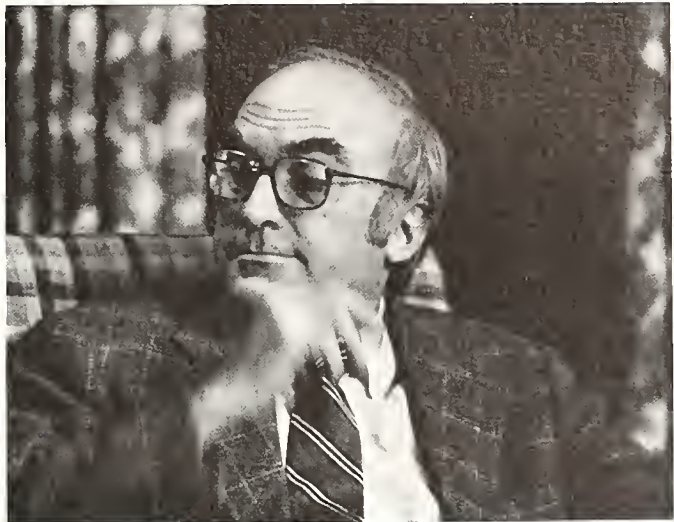

"The Student Government Association has moved from the position of token student government to that of real participation in the decision-making process at BSC over the last five or six years. On the whole, the S.G.A. has become recognized by faculty, staff, and Board as the representatives of valid student opinion."

Phi Beta Kappa

Bruce Wilson

Johnny W. Mitchell

Phi Beta Kappa, national honorary scholarship fraternity, established the Beta of Alabama Chapter at BSC in 1937.

Election to Phi Beta Kappa is based on scholarly achievement in a broad program of intellectual interest within the context of a liberal education. High grades alone, particularly if earned in a narrowly conceived vocational or pre-professional program, are not sufficient reason for election. Students are elected by the resident members of Phi Beta Kappa after a careful analysis of grades and course distribution.

Candidates for election must be pursuing a liberal arts degree of adequate breadth; candidates for degrees other than Bachelor of Arts or Bachelor of Science will be considered only if they have fulfilled the general program for the liberal arts degree. Election is limited to those students who will complete degree requirements by the June following election. At no time may Phi Beta Kappa elect more than ten per cent of the graduating class to membership; students with less than a 3.4 grade point average may not be considered for membership. Transfer students are eligible for consideration for membership, although the criteria for election are somewhat different than for non-transfer students. — BSC Bulletin

Dr. Neal R. Berte

tenth president of Birmingham-Southern College; former dean of New College and vice president for educational development at the University of Alabama; holds a Doctorate in political science from University of Cincinnati

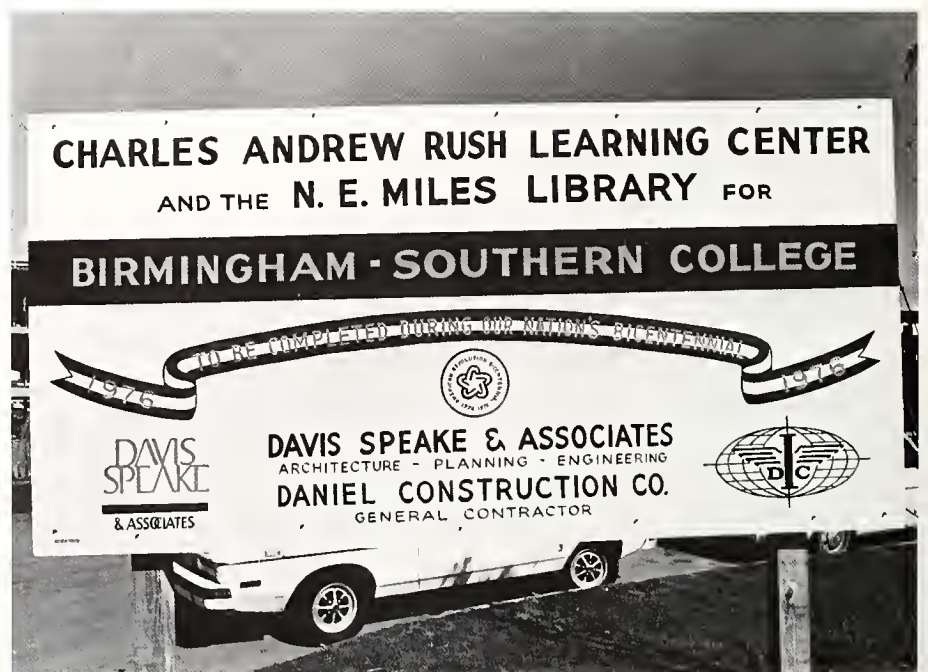

Building

it was hard to believe that there was finally going to be a new library; but after years of stagnation, Southern was starting to grow again; and the library was the most visible example of it; oh, it knocked out some parking space and looked like any construction site at first, but as work progressed and the brick went on, a promise moved towards reality; with the addition of a dynamic young president and hints of future plans, Birmingham-Southern was striving anew towards the reputation for excellence which it had so richly earned in the past

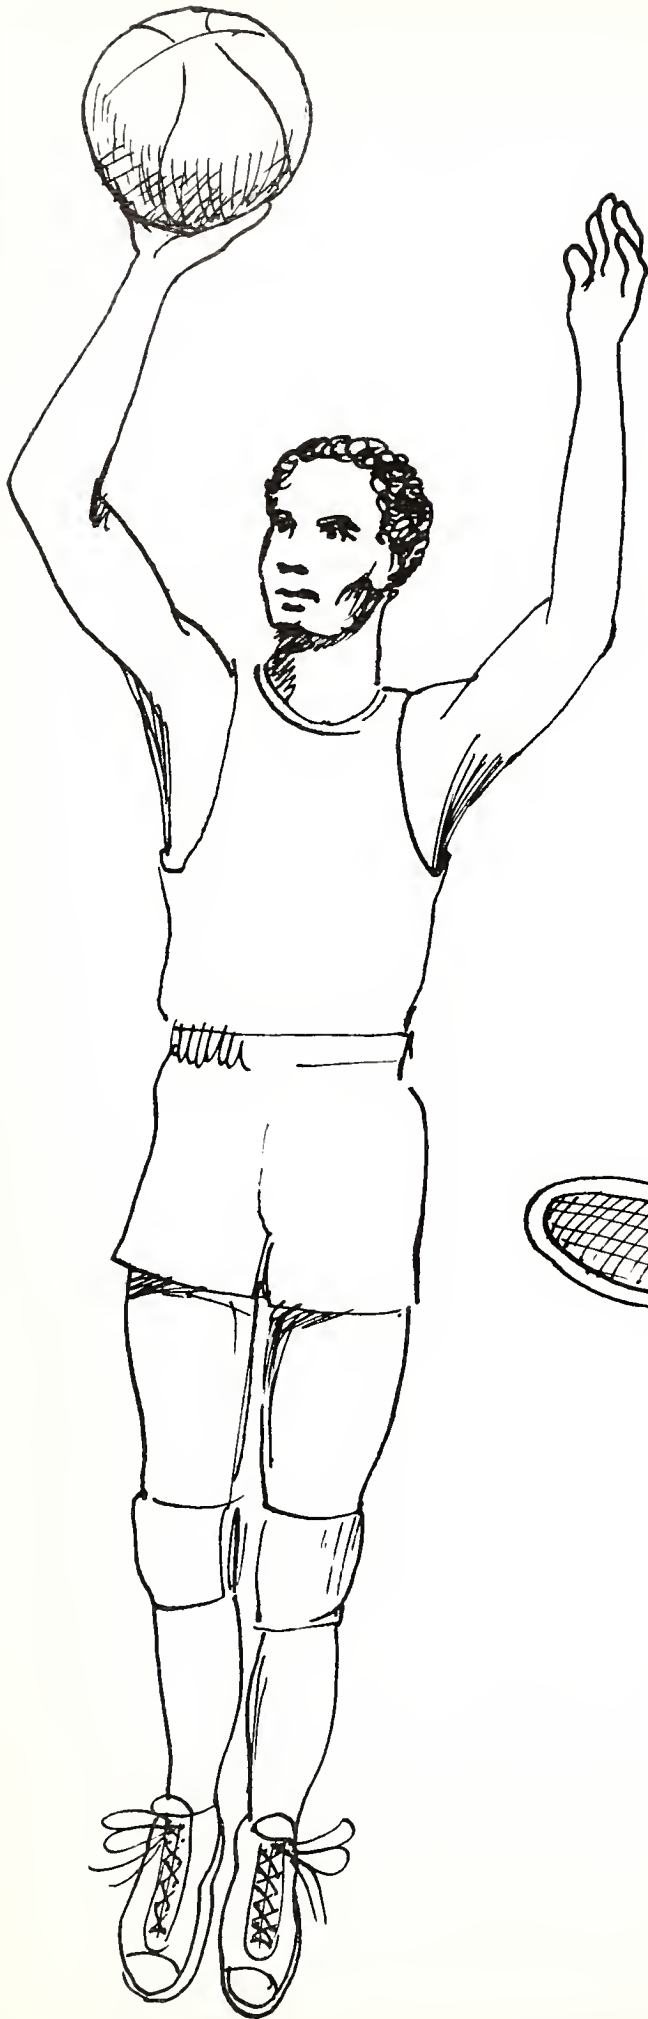

Reflections

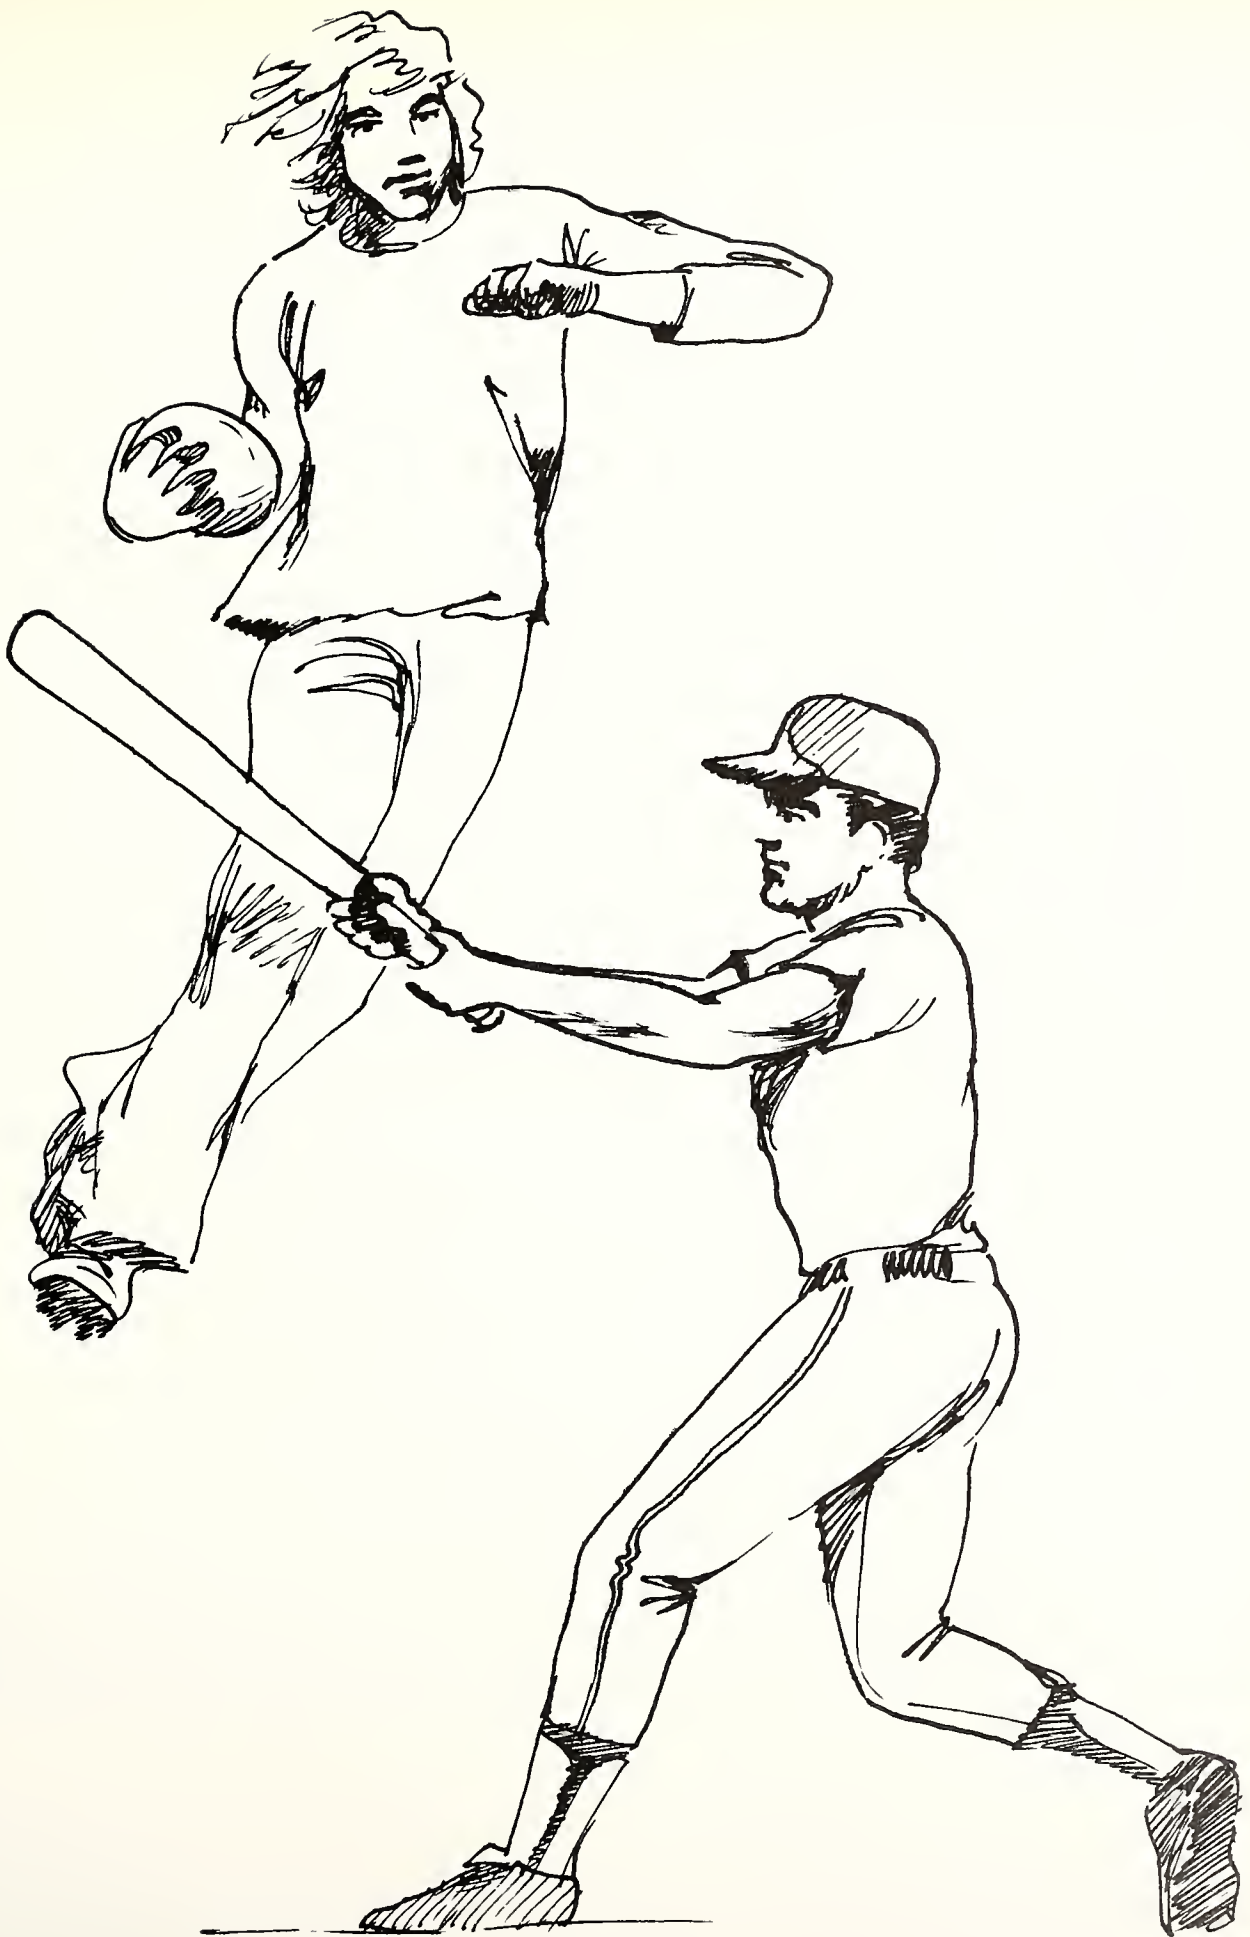

they come often now; the mind acts as a mirror, throwing back memories; you ponder: What have I been? What am I now? What could I possibly be?; college is the turning point for you; in this year of the Bicentennial, America has arrived at its turning point; will it last another 200 years?; you and others of your generation will help answer that question; details of Advanced Calculus or Intro to Music will be forgotten; but if you learn at Southern to think and reason, to consider and care for others, and support your ideals with constructive action, the answers to your questions will not only be right for you; they will be right for America

To be in the position of having your impressions of life and times at BSC bound between the covers of the **Southern Accent** for two years is, I believe, a privilege and a trust. I am very thankful to have been given the honor. But the special treat has come from those who helped me and meant so much, especially this year. Praises are due for my untiring editor Jamie, who had the patience of a saint and let me spend whatever I wanted. He did a fantastic job. I want to thank in particular Craig Hinshaw, Billy Lopez, Amy Douglas, and all the brothers of LXA. And Anne, for being, and being there at the right time.

Though no one dedicates yearbooks anymore, I want to dedicate my part in this one to S.D.M., whom I will always cherish. May the Furies let her go and leave her be.

If you will take a few minutes and read the ramblings of a retiring editor. I am going to avoid any comments concerning the universal relevance of this book, and would like to acknowledge the many people who made this book a reality.

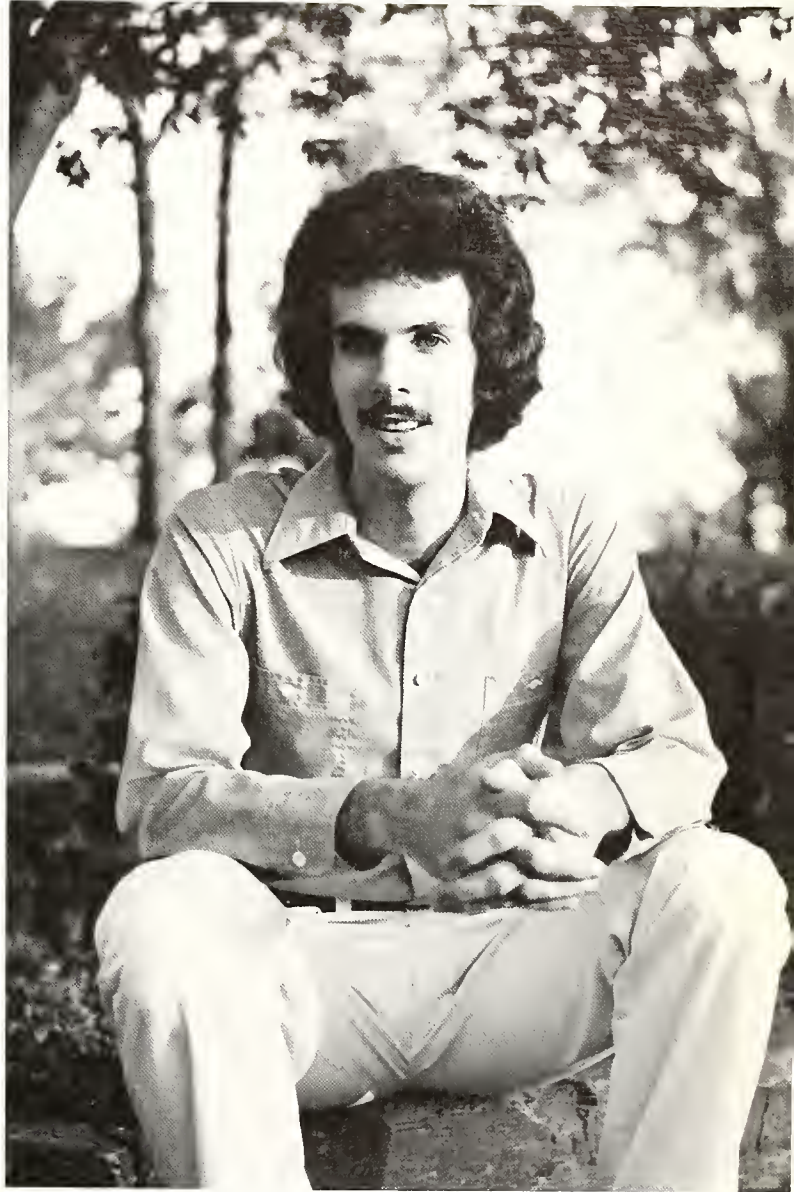

First of all, I would like to recognize the people who created this book—the students of Birmingham-Southern College. However, I do believe that several people deserve a special thank you in producing the 1976 **Southern Accent**.

Special thanks to Olynn, who served as Business Manager; to Allen, who without his camera this book would not have been produced; to Ray Martin, who was always willing to listen and help; to Beth for completing a section the night before a deadline; to Shaun for doing last minute art work; to all the Alpha Tau Omegas for showing me the understanding of true brotherhood; to Kes for always smiling; to Mrs. Hill, who gave me inspiration; to Dr. Smith and my Fall Term professors, who helped me survive academically . . .

I can't thank everyone on an individual basis, but the 1976 **Southern Accent** Staff deserves special mention. This book was not the result of one person or editor, but was the result of a team effort. And I do believe that these people, who took time from their academics to help with this book need commending for their excellent work and dedication: Pat George, Mitsy Britten, Jo Woodham, Lynette Bradley, Beth Pulliam, Steve Zachow, David Edmonds, George Kassouf, Shaun Taylor, Scott Wilson, Marcia Walker, Beth Mauldin, and Ginny Alderson.

I have enjoyed being the 1976 **Southern Accent** Editor, but I must reiterate the statement that many editors have made—I would never do this again. However, I do believe that my position as editor contributed a great deal to my being by giving me the opportunity to meet people, and form friendships that otherwise would have been non-existent.

Listen!

At your graduation exercises, the commencement speaker will say something to the effect that “the future of this nation is in your hands” or “you are being given a great challenge”.

They always say things like that at graduation exercises. It seems to be the thing to do.

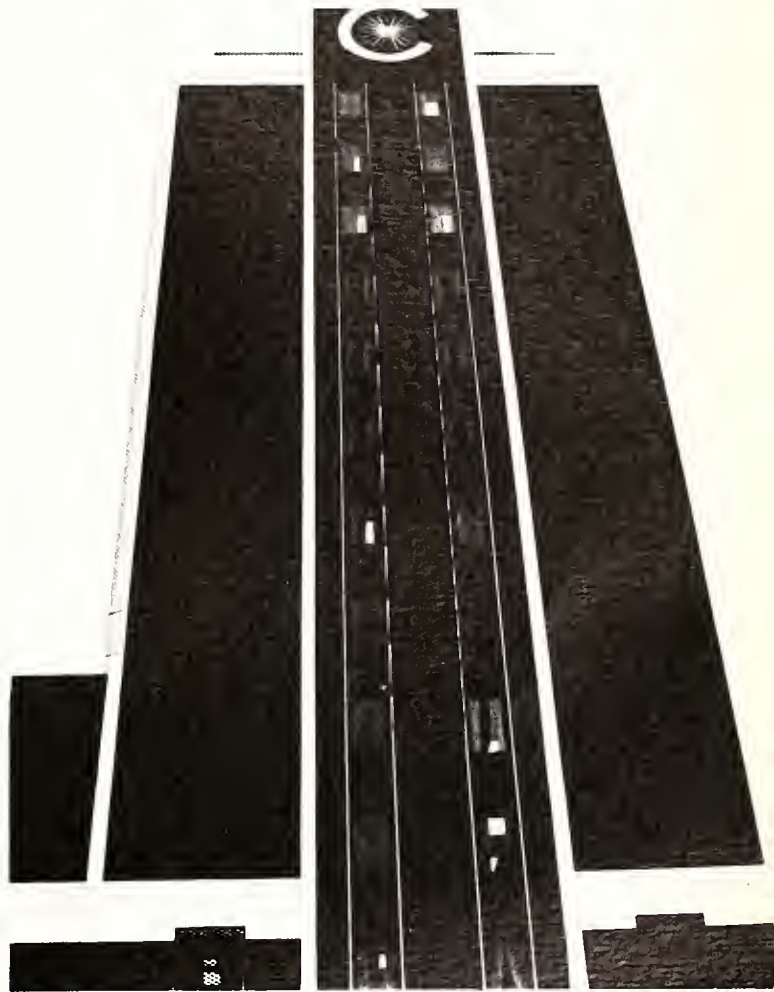

They’ve said it so much that most folks expect it and don’t even hear it.

That’s bad...because it’s true.

The future is in your hands...whether you hear it or not...and whether you like it or not.

Do something about it...Listen.

Shall we not learn from life its balances, dynamics, laws? Learn to base our needs not on death, waste, destruction, but on renewal? In gentleness and in wisdom learn to shape a civilization based on love and friendship?

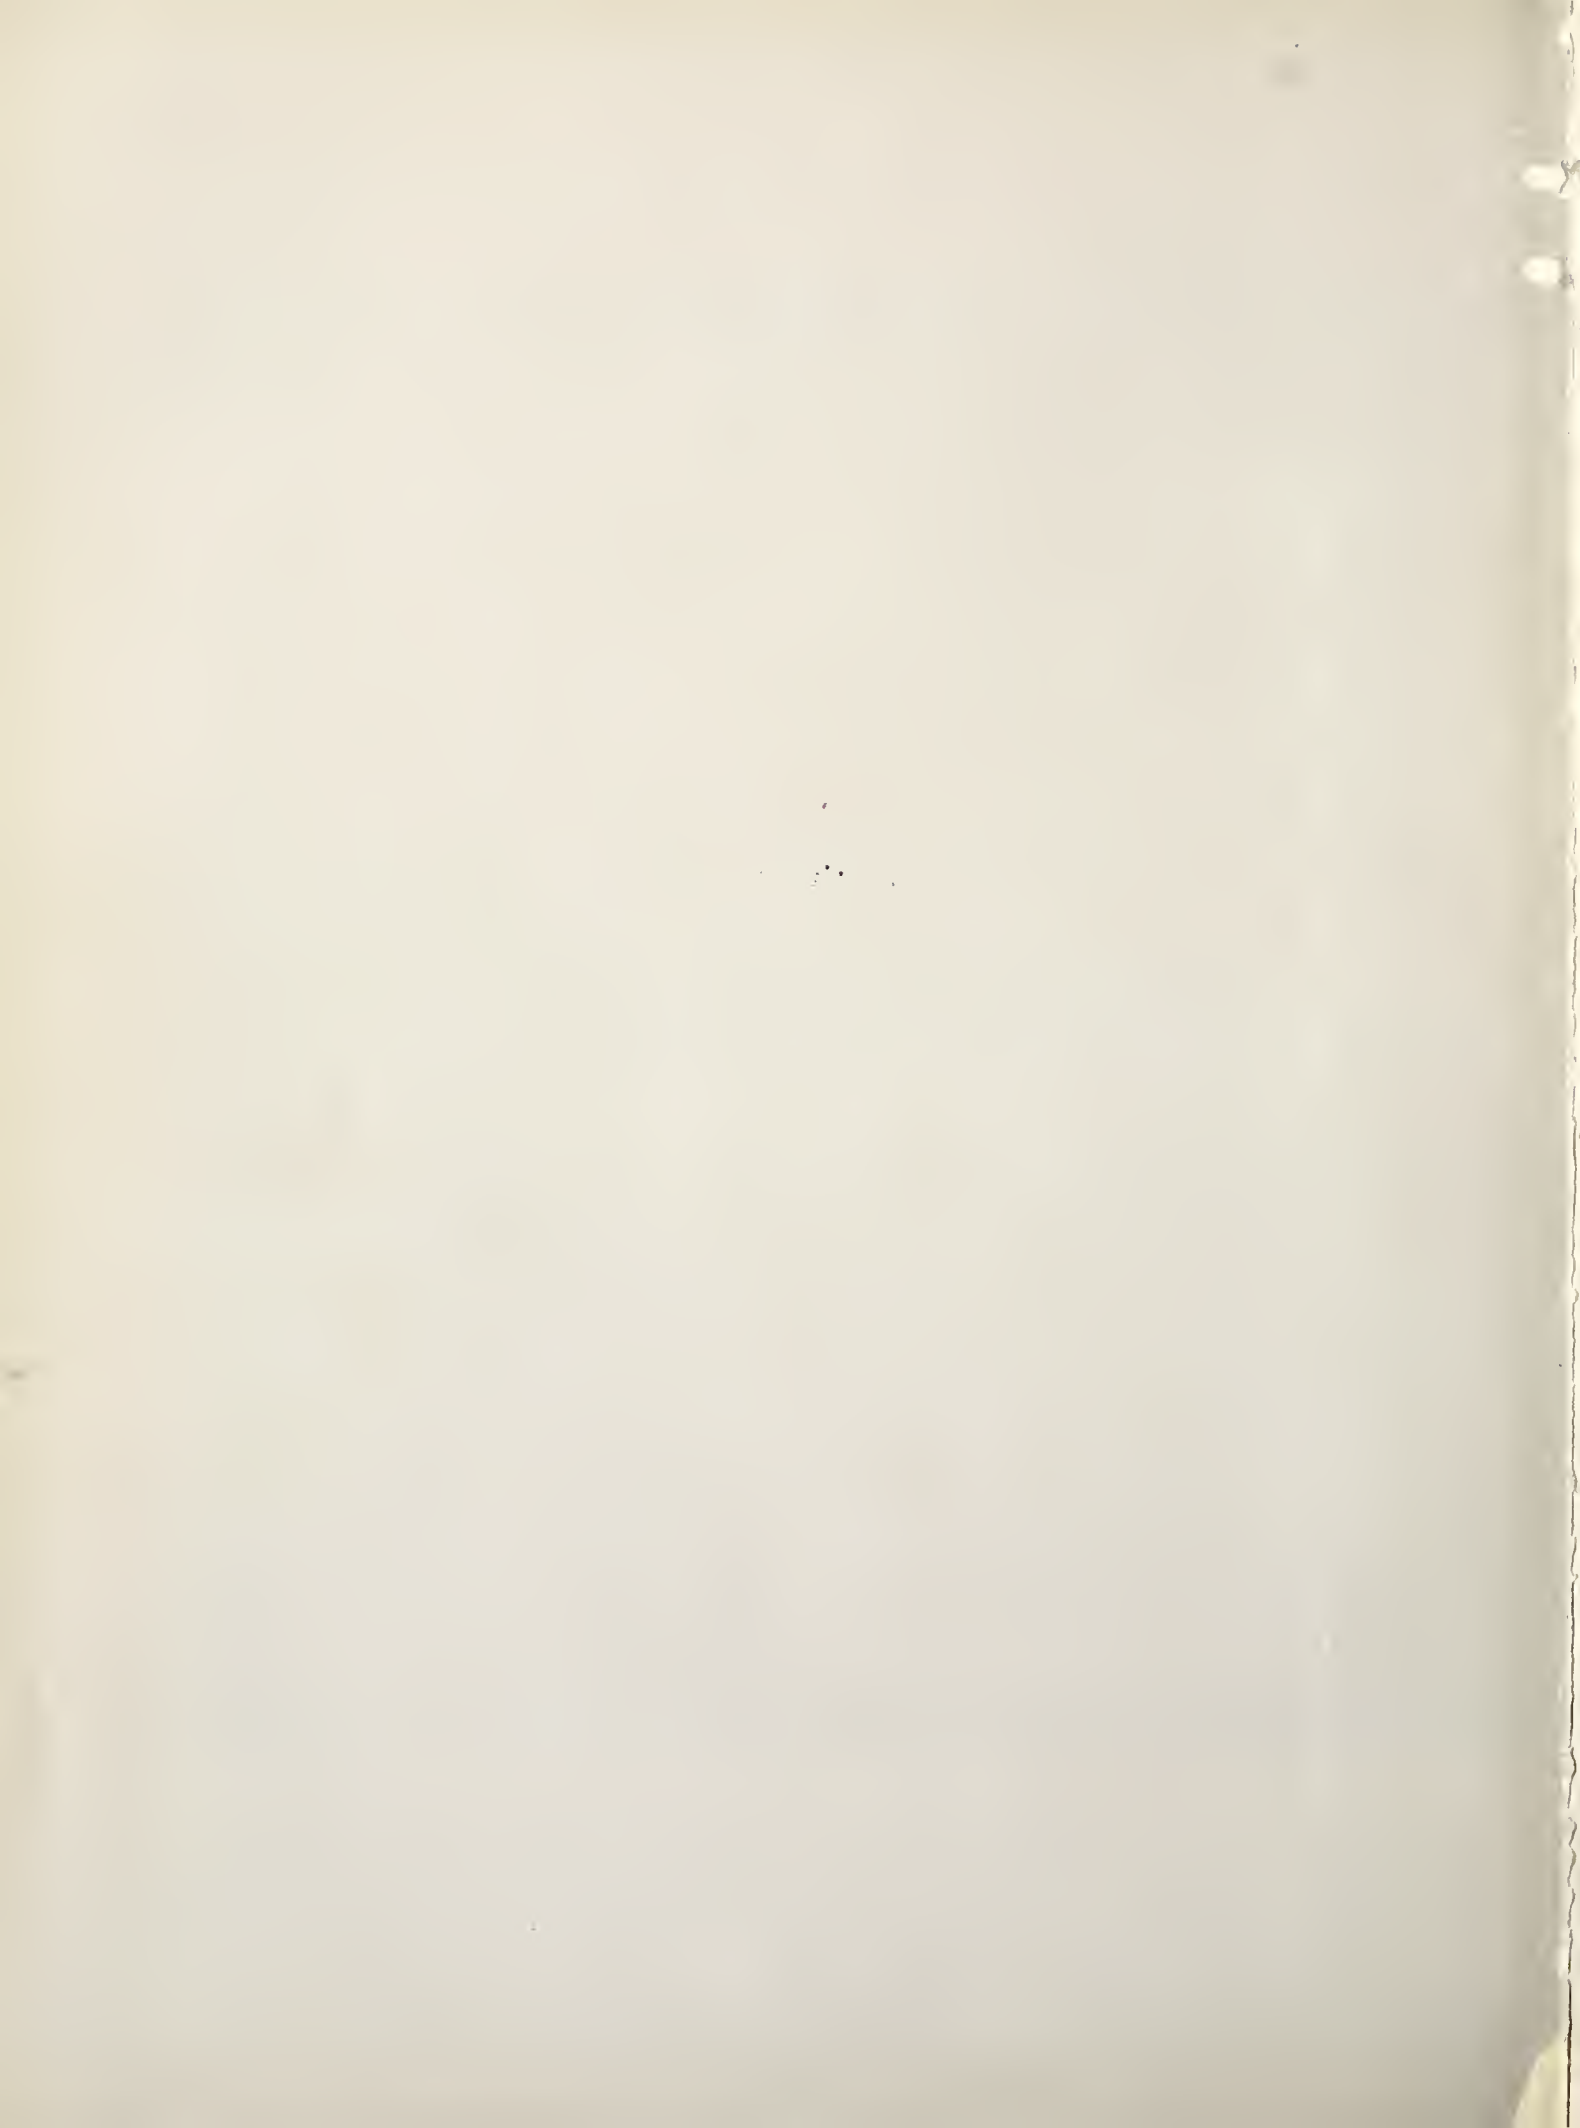

Air, water, life, these above all—these that in their huge cycles constantly renew themselves—these, with the sun's light, form the great conditions of Man's being.

Life and death on this planet now lie in Man's hands. At depth after depth we penetrate these phenomena which encompass us. Still beyond our grasp shimmer the ultimate truths of love, peace, understanding, and friendship. Unless we master these, how shall we learn—not to die—but to live?
